Temple Hills (TH), Laguna Beach,

The Wave House, a magnificent architectural gem perched atop the breathtaking cliffs of Laguna Beach, invites you to experience the ultimate in coastal living. Designed by the award-winning architect Sigrid Miller Pollin AIA, this masterpiece was inspired by the organic forms of Spanish great Antonio Gaudi and the challenging topography of the site. The home's curvilinear design follows the terrain, cascading down the cliffs to showcase the dramatic ocean views, while offering over 5300 square feet of luxurious living space. Perfect for entertaining or for families with older children, the home features two separate living areas, 6 bedrooms, 6 bathrooms, and all the amenities you would expect from a true luxury home.

The gourmet kitchen, complete with dual Wolf ovens and a 6-burner stove, is a chef's dream come true. The custom wet bar, beverage refrigerators, and skylights that let in natural light on all levels add to the home's warm and inviting atmosphere.

Step outside and bask in the beauty of the spacious outdoor living spaces, including more than 3000 square feet of deck space, outdoor patios, an infinity pool, and a relaxing Jacuzzi, all surrounded by the organic-like design.

Every detail was meticulously attended to in the construction of this warm and contemporary home, with exquisite finish materials and breathtaking whitewater views of Main Beach and the legendary Catalina sunsets.

Embrace the ultimate coastal living experience at the Wave House, where elegance, comfort, and breathtaking views meet. Don't miss your chance to make this stunning abode your own!
